Over And Done

Nothing Done

Your hand in my hand and my hand in your hand
Your hand in my hand, closeness of the past
My hand in your hand, your hand in my hand
Jerking back and nothing will lastI have to go before it's too late
Have to wipe out the traces and memories will fade
And tears will stop flowin' and tears will stop flowin'
And memories will fade and memories will fadeOver and done, over and done
Over and done, over and done
Over and done, over and done
Over and done, over and doneDead and frozen my heart, over and done
My life falling apart, over and done
Dead and frozen my heart, over and done
My life falling apart, over and done
Over and done, over and doneYour voice in my voice and my voice in your voice
Your voice in my voice, sweet echoes of the past
Your voice from the call box, your voice at the door
Don't want that anymore and nothing will lastHave to plug my ears before it's too late
Have to put out the glow and memories will fade
And tears will stop flowing and tears will stop flowing
And memories will fade and memories will fadeOver and done, over and done
Over and done, over and done
Over and done, over and done
Over and done, over and doneDead and frozen my heart, over and done
My life falling apart, over and done
Dead and frozen my heart, over and done
My life falling apart, over and done
Over and done, over and doneYour eyes in my eyes and my eyes in your eyes
Your eyes in my eyes, faint glimmer of the past
My eyes in your eyes and your eyes in my eyes
Shine turns dull and nothing will lastHave to look away before it's too late
Have to put out the fire and memories will fade
And tears will stop flowing and tears will stop flowing
And memories will fade and memories will fadeOver and done, over and done
Over and done, over and done
Over and done, over and done
Over and done, over and doneOver and done, over and done
Over and done, over and done
Over and done, over and done
Over and done, over and doneDead and frozen my heart, over and done

My life falling apart, over and done
Dead and frozen my heart, over and done
My life falling apart, over and doneDead and frozen my heart, over and done
My life falling apart, over and done
Dead and frozen my heart, over and done
My only sun, over and done
My only sun, over and done
