

# Don't Hang Up

## The Orlons

With my inside outside looking for a free ride waiting for the band to come  
Is it me or the drummin' or your guitar strummin' gotta tell me I'm the only one  
I wanna sit here drink beer I really love you dear but there's a rent man knockin' at the door  
I got a new shoes new dress hair-do I guess you don't love me anymore  
Don't hang up don't hang me up  
When I'm out there rockin' I'll be rockin' round the clock and I will always come home to you  
While you're downtown playin' I'll be uptown strayin' 'cause that's what lonely women do  
Don't hang up don't hang me up  
Love is strange love is sad  
  
But love is everything we have  
It's gone today gone tomorrow  
Why is that the way it has to be for you and me  
Love is strange love is sad  
But love is everything we have  
It's gone today gone tomorrow  
Why is that the way it has to be for you and me  
I got good news bad news the record deal feel through sorry I'll be out of town  
Wait dear not here  
Don't hang up don't hang me up
