

# Don't Wanna Be Alone

Tyra B

They say that love is a game  
Only played by the dumbest of fools  
That the feeling's elusive  
And what can you do with a ruse?

"Oh. Oh. Ooh, ooh, ohh"

They say that wanting a heart  
Is nothing like what people believe  
And to give it away  
Is something you don't want to need

"Oh. Oh. Ooh, ooh, ohh"

Listen to me

I don't wanna be alone  
I'm gonna find someone  
I swear the fire will never grow cold  
I get scared sometimes  
When I see all the connections happening around me  
That fate will evade me  
That time will betray me

That future I just don't want to see

"Oh. Ooh, ooh, ohh"

Don't wanna be that synapse swerve that missed the nerve  
And now is dead for eternity

Listen to me

I don't wanna be alone  
I'm gonna find someone  
I swear the fire will never grow cold

Listen to me

I'm not gonna be alone  
I'm gonna find someone  
I swear the fire will never grow cold

I don't wanna be

I'm not gonna be

I don't wanna be

I'm not gonna be

Lonely anymore

Not gonna be lonely anymore

Don't wanna be lonely anymore
