Bombshell Blonde

Owl City

That blonde, she's a bomb, she's an atom-bomb
Rigged up and ready to drop.
Bad news, I'm a fuse and I've met my match
So stand back it's about to go off.
That vixen, she's a master of disguise,
I see danger when I look in her eyes,
she's so foxy, she could lead to my demise,
So I'm running 'cause I've run out of time,
She's a bombshell blonde, wired up to detonate
I'm James Bond, live to die another day
Bombshell blonde, high explosive dynamite
She's all I want so I-I'm on a mission tonight
Her love is a drug laced with ecstasy,
and her charm is spiked with a spell.
A hot mess in a dress gets the best of me,
she's ice cold but she's making me melt.
That vixen, she's a master of disguise,
I see danger when I look in her eyes,
she's so foxy, she could lead to my demise,
So I'm running 'cause I've run out of time,

She's a bombshell blonde, wired up to detonate
I'm James Bond, live to die another day
Bombshell blonde, high explosive dynamite
She's all I want so I-I'm on a mission tonight
That vixen, she's a master of disguise,
I see danger when I look in her eyes,
she's so foxy, she could lead to my demise,
So I'm running 'cause I've run out of time,
She's a bombshell blonde, wired up to detonate
I'm James Bond, live to die another day
Bombshell blonde, high explosive dynamite
She's all I want so I-I'm on a mission tonight
That vixen, she's a master of disguise,
I see danger when I look in her eyes,
she's so foxy, she could lead to my demise,
So I'm running 'cause I've run out of time,
She's a bombshell blonde, wired up to detonate
I'm James Bond, live to die another day

Bombshell blonde, high explosive dynamite
She's all I want so I-I'm on a mission tonight
I-I'm on a mission tonight (x6)
