

Come Around

M.I.A.

Check my coat in and I paid the dollar
Sidekick rings, "What's up?", holla
Text the address, I'll see you later
Baby, come downCome down, come down, come down
Run down, run down, run down
Run, make a run, make a run, make a run
Make a run, make a run, make a run downDun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes onA dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes onIn a faraway land we got shit made
Ray-Ban shades, warheads laid
Babies born in air raids
My girls run the EvergladesIndian tribesmen gamble spades
Indian chicks, they get men laid
Milk and honey, smoke high-grade
Golds and diamond, gems and jadeRide up on our tanks, invade
Blow up things to save our name
Mina, Rina, Tina, Sabrina
Being a super Indian babeWe black market, we black made
We hit shit out when it rains
Would you come down and catch my train?
Would you run down and play this game?Check my coat in and I paid the dollar
Sidekick rings, "What's up?", holla
Text the address, I'll see you later
Baby, come downCome down, come down, come down
Run down, run down, run down
Run, make a run, make a run, make a run
Make a run, make a run, make a run downDun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes onA dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes onHey, hey, baby girl, you and me
Need to go to your teepee
The moon is full and I'm shinin'

Baby, I know you see me Put a hump or two on your back
Just like that, ooh girl, you on fire
I don't wanna be in love with you
I'ma just break you off and say goodbye The night is young, don't make me wait
You just might miss your chance
I'ma gon' tell you the truth
Timbaland, I'm the motherfuckin' man Today's the day, girl, let me get that
Don't get mad, in fact, let me hit that
I've been overkillin' them, I break backs
Come down, run down, girl, where your place at? Check my coat in and I paid the dollar
Sidekick rings, "What's up?", holla
Text the address, I'll see you later
Baby, come down Come down, come down, come down
Run down, run down, run down
Run, make a run, make a run, make a run
Make a run, make a run, make a run down Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes on A dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Dun da da dun da da dun da da dun dun
Beat goes on Break, put the lights up in here one time
And bounce, bounce, bounce, bounce
Let me tell you somethin' Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead
Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead
Don't get it twisted, baby girl
Baby boy 'cause Timbaland ain't dead Yeah, yeah, yeah, bounce
Girl, Timbaland ain't dead
