

# All My Children

## Gucci Mane

[Intro]

What's happening?

Everybody love you

I love my kids

Guwop

It's Gucci

Huh

Go[Hook]

All my, all my, all my children

All my, all my, all my children

All of these rappers are all my children

All of these rappers are all my children

All my, all my, all my children

All my, all my, all my children

All of these rappers are all my children

All of these rappers are all my children[Verse 1]

Don't nobody love you like pa love you

Don't nobody love you like Guwop love you

I had to make a track to say I'm proud of you

Stop that track to tell my children that I'm proud of them

Making rockstars out of trap boys

And if we never talk again, still got your back boy

This here is bigger than the game, deeper than rap, boy

Just ask around in East Atlanta, I'm the landlord

Fuck a contract, I'd rather shake your hand boy

Yeah I'm your CEO but I'm your biggest fan boy

Said I'm the best A&R that's in the business (It's Gucci)

But there's an AR-15 in my bentley[Hook]

All my, all my, all my children

All my, all my, all my children

All of these rappers are all my children

All of these rappers are all my children

All my, all my, all my children

All my, all my, all my children

All of these rappers are all my children

All of these rappers are all my children[Verse 2]

I'm laid back, feet up, watching all my rugrats

Come up, turn up, real niggas love that

Guwop, proud poppa, went and got you your first chopper

Show stopper, globe trotter, all I get is more dollars  
Gucci got more money than all these rappers  
Guwop got more money than all these trappers  
I can take a dope boy and make him go platinum  
But how a drug dealer from East Atlanta go platinum?  
Master P, '93, mixed with a lil Eazy-E  
Dancing in the video like Puff cause I got plenty G's  
Family, you sign with me  
My young nigga's gonna ride with me  
All my niggas gonna die with me  
And all my kids bust five with me[Hook]  
All my, all my, all my children  
All my, all my, all my children  
All of these rappers are all my children  
All of these rappers are all my children  
All my, all my, all my children  
All my, all my, all my children  
All of these rappers are all my children  
All of these rappers are all my children
