

She's Dangerous

Blessed By A Broken Heart

She's got an appetite that won't stop
The way that she's dancing should be against the law
She likes to show off
Her body act like the life for a party
And make it hard for you to keep her
And it's just a matter of time
For it starts to play with your mind
She's supersonic and her eyes are so hypnotic
I used to think that she was innocent, girl.[Chorus] x2:
She's got the passion
That girl is dangerous
Better be careful
That girl is dangerous
you'll learn the hard way
That girl is dangerous
She's dangerous, dangerousShe'll do anything for a good time
She'll break your pockets down to the last dime
She's so exotic and it's so amazing
She's the perfect perk for any occasion
And it's just a matter of time
For she starts to play with your mind
That girl is evil and her love should be illegal
You'll get to close her fear all ... wanna be her[Chorus] x2:
She's got the passion
That girl is dangerous
Better be careful
That girl is dangerous
you'll learn the hard way
That girl is dangerous
She's dangerous, dangerous[Timbaland]
Oh here she comes
Acting all sophisticated
So new like u can't upgrade it
Can't hate it
And and and and
Oh here she comes
With the diamonds all in her ear lobe
Blue tooth all in her hear hole
Check how the story unfolds

You in VIP and she's scheming up a plot
You pushing up them bottles and she pushin up her top
She gives you little stares as you rubbin thru her hair then
She shake her derriere
And and and and
You just thinking the draws might drop
Well I'm just thinkin' she's counting out your knot
You feeling on your shirt pockets like you've been shot but
You really been got
Let's rock[Chorus] x2:
She's got the passion
That girl is dangerous
Better be careful
That girl is dangerous
you'll learn the hard way
That girl is dangerous
She's dangerous, dangerous
