## Warzone

Warzone  
In your mind, in your dreams  
In the real world  
Warzone  
Everyday you wake up  
Roam the streets  
Warzone  
Must be strong  
Believe in yourself  
Warzone  
And you will see  
They lied to all of us  
Never really cared about you  
Step right on your grave  
It's time that you  
realize  
They fucked us over again  
The powers that be don't give a shit  
Now I guess you know you're in a  
Warzone
