When In Rome

Mudhoney

When it all burns down
What you gonna do?
When it all burns down
Where you gonna go?
When it all burns down
How far you gonna run?
When it all burns downNever thought it'd get down to this
Never thought it'd get down to thisDeep and sound asleep
And never saw the blaze
Deep and sound asleep
Couldn't smell the smoke
Deep and sound asleep
Didn't feel the flames
Deep and sound asleepWe were dreaming while the city burned
We were dreaming while the city burnedNow it's all burned down
Who can you trust?
Now it's all burned down
How come you're still alive?
Now it's all burned down
Where can you sleep tonight?
Now it's all burned downGot one bullet left
And your time's run out
Better take that last shot
Better make it count
Got one bullet left
And your time's run out
Better take that last shot
Better make it count
