

# Two Cherished Understandings

## Avi Buffalo

I know why you stalk the night,  
Come under the overpass  
Seeing all you want to see  
Seen a space so far away  
Years ago I told you why  
Making love is nothing ain't wrong with that  
Told you that i believed in you  
Won't you come on through one more time I know I loved you  
I know I see the rain,  
There ain't no understanding baby  
Understanding, baby Told you that i talked to her,  
Thought we understood each other well.  
I was wrong as usual  
Wonder when they'll break the spell Yeah Yeah,
