Cattle and the Creeping Things

The Hold Steady

They got to the part with the cattle and the creeping things, said I'm pretty sure we've heard this one before Don't it all end up in some revelation with four guys on horses and violent red visions

Famine and death and pestilence and war?

I'm pretty sure I heard this one beforeYou in the corner with a good looking drifter, two cups of coffee and ten packs of sugar

I heard Gideon saw you in Denver, he said you're contagious

Silly rabbit, tripping is for teenagers, murder is for murderers and hard drugs are for bartenders

I think I might have mentioned that beforeHe's got the pages in his pockets that he ripped out of the Bible from his bed stand in the motel

He likes the part where the traders get chased out from the templeI guess I heard about original sin, I heard the dude blamed the chick, I heard the chick blamed the snake

I heard they were naked when they got busted and I heard things ain't been the same since
You on the streets with a tendency to preach to the choir, wired for sound and down with whatever
I heard Gideon did you in DenverShe's got a cross around her neck that she ripped off from a schoolgirl in the
subway on a visit to the city

She likes how it looks on her chest with three open buttons

She likes the part where one brother kills the other, she has to wonder if the world ever will recover 'Cause Cain and Abel seem to still be causing troubleShe said I was seeing double for three straight days after I got born again

It felt strange but it was nice and peaceful and it really pleased me to be around so many people
Of course, half of them were visions, half of them were friends from going through the program with me
Later on we did some sexy things, took a couple photographs and carved them into wood reliefsBut that's
enough about me

Come on, tell me how you got down here into Ybor CityHe said I got to the part about the exodus And up to then I only knew it was a movement of the people

But if small town cops are like swarms of flies and blackened foil is like boils and hail I'm pretty sure I've been through this beforeIt seemed like a simple place to score And it seemed like a simple place to score

It seemed like a simple place to score and then some old lady came to the door And said McKenzie Phillips doesn't live here anymore
