

# Chain Reaction

## Beck

Coming through the barricades  
Cutting the lines  
The red lights going round  
Like insanity sirens  
The end of the galaxy  
The middle of the road  
Where the blackout moons  
Cut the weather of souls  
Black engines grind down  
Teeth are raw  
The rubber juggernaut  
Rots in a shattering jaw  
Helter skelter bulldozers  
Runnin' over the block  
Where a pawnshop clock  
Is ticking out like a bomb  
It's a chain reaction, yeah!  
It's a chain reaction, yeah!  
It's a chain reaction, yeah!  
It's a chain reaction, yeah! On a chain reactor  
Blowing out of my arms  
Shoot every paranoid phantom  
That's done me harm  
Like a desolate specter  
With a pummel of fists  
Kicking against the pricks  
Burning black like wicks  
They spit pig iron  
Tell you nothing is wrong  
Put a heart on a pike  
Sing a resurrection song  
For a paralyzed mind  
In a kerosene jar  
Barracuda believer  
With a heathen guitar  
Apocalyptic nostalgia tokens  
Dark arks set sail  
For Antarctica oceans  
It's a chain reaction, yeah!

It's a chain reaction, yeah!  
It's a chain reaction, yeah!  
It's a chain reaction, yeah! It's a chain reaction  
It's a chain reaction  
It's a chain reaction  
It's a chain reaction  
It's a chain reaction  
Yea! It's a chain reaction  
Yea! Who
