All

I want to forget And all my plans gone wrong again The day we met I'm just a perfect failure And the way I felt inside I'll never replace you But you are sick And I know there's no cure But I hate to see you go So much to hate Without a fighting chance I'll never replace you But you are sick And I know there's no cure It doesn't matter what I call you Or you'll always have me As long as I call you So I won't call you anything In the palm of your hand So right now I forget you Can you do the same for me? You never tell the truth You're never faithful But I can't call you a liar But I can't call you anything It doesn't matter what I call you As long as I call you It doesn't matter what I say If I'm talking about you Or you'll always have me in the palm of your hand I can't call you anything
