

# Magnet (Rootah Remix)

## Bombay Bicycle Club

Now its decision time  
Which one will stay which one will say goodbye  
Just my luck to find  
Someone who makes me want to leave her behind  
We took the backseat, everyone was happy  
We took the back where everybody laughed  
We took the backseat, everyone was happy  
Dreaming of you rushing up to me and  
Saying this is where you want to meet  
But I don't believe you  
Cos last night you woke me up  
We almost fell in love  
But then you said  
It is time for bed
