On My Side

Leighton Meester

I've gotten far it's no wonder we're apart
And what's it for if you're not happy anymore
But on my side it isn't like that
I find myself alive in you now
Come and see me my heart's beating
Come and save me my heart's waiting for you, for you
We're doing fine let's not leave it all behind
You're in my heart no matter where we areBut on my side it isn't like that
I find myself alive in you now
Come and see me my heart's beating
Come and save me my heart's waiting for you
Come and see me my heart's beating
Come and save me my heart's waiting
Come and see me my heart's beating
Come and save me my heart's waiting for you, for you
