

Radames' Letter

musical

I'm sorry for everything I've said
And for anything I forgot to say too
When things get so complicated

I stumble, at best muddle through
I wish that our lives could be simple
I don't want the world, only you
Oh, I wish I could tell you this face to face
But there's never the time, never the place
So this letter will have to do
I love you
