## Laredo

## **Band of Horses**

Gonna take a trip to Laredo Gonna take a dip in the lake Oh, I'm at a crossroads with myself I don't got no one elseImpossibilities at the door I won't be needing them anymore Oh, is this the first time in your life? It's hard just to get by But oh, my love, don't you even know? And oh, my love, are you really gone? OooohAnd can you see the world through a window? Are you having troubles in droves? Oh, it ain't the worst thing I could do Is get back home to youI put a bullet in my Kia Lorenzo A kitchen knife up to my face Throw me in the deep of Jenner Lake Believe me when I sayThat oh, my love, you don't even call And oh, my love, is that you on the phone? Ooooh...And oh, my love, you don't even know That oh, my love, are you really gone? Ooooh
