

# Never Be the Same

## Socialburn

Well, she came around  
I saw it in her face  
Another time, another place  
Is what she wanted So, she let me go  
So she could face this world alone  
To find out where she belongs  
She said, "I'm sorry" Because I didn't know  
What should have happened  
Yeah, I didn't know  
That I had a chance to say Please don't go away  
'Cause I will never be the same  
I will never be the same Please don't go away  
'Cause I will never be the same  
I will never be the same without you Well, She came around  
About a year after she was gone  
I was passed out in her yard  
I couldn't live without her Just when I thought  
I'd taken more than I could stand  
Well, she took me by the hand  
And she said, "I'm sorry" Because I didn't know  
What should have happened  
And I didn't know she was gonna say Please don't go away  
'Cause I will never be the same  
I will never be the same Please don't go away  
'Cause I will never be the same  
I will never be the same without you, without you Well, she came around  
I saw it in her face  
Another time, another place  
Is what she wanted Please don't go away  
'Cause I will never be the same  
I will never be the same Please don't go away  
'Cause I will never be the same  
I will never be the same without you, without you  
Without you, without you
