

# Electricity

## BLOOD STAIN CHILD

Run away fly away  
Dream away slip away  
Weep away sweep away  
Reaching out for the starsAll your love All your hate  
All your sickness your fake  
Tiny minds I devour  
Dyin' a little insideMy ambition decisions  
Illusions my arrows  
Go high in the sky  
Challenging Destiny  
I'm a voice in the desert  
Do you here me now?Crawling shadows  
Haunting my sleep  
Keep on breathing  
Wake upAll your love All your hate  
All your sickness your fake  
Tiny minds I devour  
Dyin' a little insideMy ambition decisions  
Illusions my arrows  
Go high in the sky  
Challenging DestinyCrawling shadows  
Haunting my sleep  
Keep on breathing  
Wake upSudden acceleration  
Fading gravity  
Radiant transmissions  
Electricity  
Rising up from beyond  
I can feel your heartbeat  
Stretching out your hand  
I knew you'd try to find meCrawling shadows  
Haunting my sleep  
Keep on breathing  
Wake upRun away fly away  
Dream away slip away  
Weep away sweep away  
Reaching out for the starsAll your love All your hate  
All your sickness your fake  
Tiny minds I devour

Dyin' a little inside  
My ambition decisions  
    Illusions my arrows  
    Go high in the sky  
    Challenging Destiny  
I'm a voice in the desert  
    Do you here me now?
