

Dog Pile

Voodoo Glow Skulls

Say you're at a party and everyone's having fun. All your friends are skanking
All except for one. There's no need to ask him why he's in denial. Just wait
for the jumping beat then.... DOGPILE!! There's no need for violence. Against
your fellow man. We must live together in this corrupted land.
Let's try something new just for a while. Instead of pistol-packing let's all
DOGPILE!!
