New Love

The Muffs

I'm in ecstasy
But in reality
Life has never been fun
Working for the bread
Might as well be dead
But life has just begun

Keep in touch with them
Old friends have never been
What I look forward to do
Time was drudgery
Pure insanity
But then I met you

You were what I've been looking for
Now I know what I want to do
Now I got you I'll never leave you
It's true, it's true
New love always feels so good

Can't imagine
How I survived
Without you
It couldn't be done

Feeling confident
Now I always spend
Time just having fun

The first time ever
I know forever
With you, yeah, it feels so good
Now I got you I'll never leave you
It's true, it's true
New love always feels so good

You were what I've been looking for
Now I know what I want to do
Now I got you I'll never leave you
It's true, it's true

New love always feels so good

It's true, it's true
New love always feels so good
