

Beautiful Regret

Perfect Stranger

You walked into the room
Everyone starred
You took my breath
I was fightin for air
When your eyes met mine
it took me away
From that moment on
everything changed your mind

Most beautiful regret
I wish I never met you
or you were easy to forget
I could live without you
or the way you made me feel inside
I live my life and I've said
you're mine
most beautiful regret

I miss the way you held me
the touch of your skin
I miss your world
I wanna walk in it again
they say that love and lost is better
than never known love at all
but they never loved you
I think they are wrong

your my most
beautiful regret
I wish I never met you
or you were easy to forget
I can live without you
or the way you made me feel inside
I've lived my life & I've said
you're mine
most beautiful regret

you're my
most beautiful regret
I wish never met you

or you were easy to forget
I could live without you
or they way you made me feel inside
but I guess I'm gonna have to try
I've lived my life & I've said
you're mine

Most beautiful regret
