Festy Fever

My Bad Sister

FESTIVAL FEVER - My Bad Sister

Things wern't looking up Glasgow to Bristol
Flight was delayed but the rain pretty dismal
Danger picked us up Bobby sitting in the back
Didnt have no wellies and forgot to pack my mac
wristbands were waiting for us at the red gate
Bobby said dont worry we can get in with his mate
waited at the door what a bore
smoked some draw
and Polly lost her phone some how on the floor!

oh no should have walked away
oh no today's no other day
oh no shouldn't have sniffed that K
oh no we'll probably learn one day
Festival Fever!

'tell em sis'
Saturday looked bleak but you'll never believe this
We squated the Arcadia with DSC Pyratrix
Sophie broke a rib a did a gig on the Downlow
You wouldnt even know
'can't even tell on the video'
Security got fresh and took our whole stash
then i looked on the floor and found Â£30 cash
I gave a score away and spent a tenner on noz
got a double for my sister but somehow she got lost

How did it end up like this
should have been a perfect miss
didnt really make a good impression
missed gigs broken ribs wern't our intentions
How did it end up like this
could have been a perfect kiss
didnt really make a good impression
should have waked away and left the session

Festival Fever ...

(african chanting)

How did it end up like this
should have been a perfect miss
didnt really make a good impression
missed gigs broken ribs wern't our intentions
How did it end up like this
could have been a perfect kiss
didnt really make a good impression
should have waked away and left the session
