Futile Devices

Sufjan Stevens

It's been a long, long time since I've memorized your face It's been four hours now since I've wandered through your placeAnd when I sleep on your couch I feel very safe And when you bring the blankets I cover up my faceI do love you I do love youAnd when you play guitar I listen To the strings plus The metal vibrates underneath Your fingersAnd when you crochet I feel mesmerized and proud And don't say 'I love you' With saying it out loudIt's hard so I won't say it at all And I won't stay very longBut you are the life I needed all along I think of you as my brother Although that sounds dumb And words are futile devices
