Swish DaGawd verse:

Yaaaaaaaaas bitch/ shout out my nigga Cas/ DaGawd/ jump/  
King/ syde/ Flyy/ guy/ ain't no body high as I/ ain't no body fuckin wit the Cas and I/ must be the nova/ Bitch  
niggas need to move over/ my heads top of the totem/ left hand gripping my scrotum right middle finger  
extended/ been waiting to get my name called/ it's all over/ no body's, here that can save y'all/ I'm back at it/  
my bad habits are making me asthmatic/ evil tactics got me thinking I can get away with murder/ so don't blame  
me if you see me take a stab at it/ it's getting graphic you should call for back up/ this nigga automatic/  
sporadically shooting killing niggas gratuitously/ you get it free/ aint nobody fucking wit E/ syde nigga/ don't  
make me have to be the bad guy nigga/ look in my eyes/ they darker than dark knight/ you softer than pillow  
fights niggas/ in other words you couldn't hold a light to us/ so don't do this the hard way/ only one up and I'm  
shooting like way hardway/ yaknomsayin/ so start praying to Gawd/ my niggas about a check and defying the  
odds/ Nicki Minaj/ chicken and fries/ wearing the crown and being the best nigga/ snatch ya heat from out ya  
chest nigga/ last breath imma keep going till I reach that/ keep applying the pressure till I hear a bone snap/ ease  
back slowly/ please don't act like you know me/ that's the worst thing you could do/ we been working this ya  
first interview homie/ I puke verses a few hearses for rappers who ont serve no purpose they full courses/ let  
that be a lesson for niggas who lose focus/ hocus pocus make your girl my Syde bitch/ with one potion/ got  
these bitches jumping through hoops like a damn circus/ they gone wild/ pour it up cause it's going down/ the  
new wave and you gone down/ they hope I lose/ I ont know how/ a nigga nice and I been proved it/ my own  
lane so I'm just cruising/ throw the bud in that trop fusion/ king Syde at the top and we not moving/
