

# Showdown

311

So ya been kicked in the shin  
Took one on the chin  
Sometimes you lose before you win  
Just smile in the meanwhile  
At the bottom of the pile  
Third down and a mile  
Buckle up and try again Pushin', keep pushin'  
Keep pushin', keep pushin'  
Keep pushin', keep pushin'  
Keep pushin' I feel that something's gonna go down  
Don't say I didn't warn ya  
Looks like we're headed for a showdown  
Gonna get it on yeah Champions soon will be named  
Kings of the domain  
And all the pain and all the gain  
Worth more than fortune and fame now  
My oh my the stakes are high  
Win or say goodbye  
Now it all comes to this game Pushin', keep pushin'  
Keep pushin', keep pushin'  
Keep pushin', keep pushin'  
Keep pushin' I feel that something's gonna go down  
Don't say I didn't warn ya  
Looks like we're headed for a showdown  
Gonna get it on yeah Play that game like a neighbourhood side street  
Anywhere you want it I don't care where we meet  
School yard, front yard, back yard, town park  
I don't think that you bite, all I hear is you bark  
To the body one shot  
Wrecking ball can't be stopped  
In the lane, yeah we got this game  
Play through pain that's why we came When it's all laid on the line  
I can't settle for less than  
Everything that should be mine
