## Grimaldi

Suit black as ink  
I bet I know your drink  
everything you pray for, everything you play for  
Baby turn around  
Mind if I sit down  
everything you pray for, everything you play for me  
I la la la la love it  
I la la la la love it  
I la la la la love it, love it, love it love  
You got a sexy sound  
you want another round  
I like the way you play boy  
Tell me why you play boy  
Does it make you feel  
Like nothing else is real  
I like the way you play boy  
Show me why you play boy  
I la la la la love it  
I la la la la love it  
I la la la la love it, love it, love it love  
I la la la la love it  
I la la la la love it  
I la la la la love it, love it, love it love  
I la la la la love it  
I la la la la love it  
I la la la la love it, love it, love it love
