

Lay It Down

[Ratt](#)

I know you don't really know me
I know you don't really care to see me
I'm into total affection
Not being scared if you never please me You know you really want to lay it down
Right now and how
I know you really want to lay it down
Right now Lay it down, lay it down
Lay it down, lay it down Under the sheets you will find me
I know that nothings for free
You take what's good for your pleasin'
I'll take what's good for this crazy evening You know you really want to lay it down
Right now and how
I know you really want to lay it down
Right now Lay it down, lay it down
Lay it down, lay it down
Lay it down, lay it down
Lay it down, lay it down And I know you only want romance
I'll give you all that I can
If you give me just one chance, to prove myself
In love Lay it down, lay it down
Lay it down, lay it down
Lay it down, lay it down
Lay it down, yeah yeah yeah Lay it down, lay it down
Lay it down, lay it down
Lay it down, lay it down
Lay it down, lay it down
