Little Bit

Bright Light Bright Light

That's about the peak of my day
Waiting to hear back from you, see if you're okay
And move my head from left to right
Are you coming over the mountains or did you get up and fly?
And did your wings take you to such heights?
So high that I'll never reach you cause I don't know the skies
I'm stuck down here on land and sea
I'm calling out, can you hear me?
Looking for a way to say I love you
I love you, I love you
That's not the same as all the others at your door
Cause I love you, I love you, I love you
Just a little bit more
Every song's about you these days
I'm writing about how I want to get you in a placeWhere I don't waste time trying to catch your eyeWhere I don't have to waste moments when I should be making waves
In your heart, then make you smile
And make you laugh 'til you feel like we're coming back in style
And this cool front we keep goes up in flames
I'm calling out, can you hear me?
Looking for a way to say I love youI love you, I love you
It's not the same as all the others at your door
Cause I love you, I love you, I love you
Just a little bit more, little bit more
Little bit more
I love you more
A way to say I love you
I love you, I love you
It's not the same as all the others at your door
Cause I love you, I love you, I love you
Just a little bit more, just a little bit more
Just a little, just a little
