

Better

Betty Who

You look a lot like forever
I'm made of yesterdays
Even if you don't believe me
I couldn't be less afraid
Sometimes you kiss me goodbye
Like it's the end of all days
Please don't walk away
Do you hear me when I say
Your making every single day
A little bit better, better, better
You're making it better, better, better
You're asking me to stay
Begging me not run away
But I could never, never, never
I would never, never
It's the way you make love to me
It's the the way you look up at me
What do want from me
Do want to make love?
I hate you most when you're silent
Why won't you talk to me?
You hate me most when I've gone away
Just when you're near to me
I wanna' kiss you goodbye
Like it's the end of all days
Do you hear me when I say
You're making every single day
A little bit better, better, better
You're making it better, better, better
You're asking me to stay
Begging me not run away
But I could never, never, never
I would never, never
It's the way you make love to me
It's the the way you look up at me
What do want from me
Do want to make love?
It's the way you get through to me
When you think that your losing to me

Do you want to keep using me
Do you want to make love?
 Oh....Oh....
 Then you kiss me again
 Then I'm your ever friend
 Do you hear me when I say
 When you kiss me again
 Then I'm forever your friend
It's the way you make love to me
It's the the way you look up at me
 What do want from me
 Do want to make love?
