Turn Me On

James Blunt

I?m a boy and she?s a girl
And we?re gonna do this around the world
Catch her heart and count to five
And remember everybody dies you know,
I?m not her friend no, not second best
I?ll send her home unless they?re both in it
Together having had both of each other
That?s my kinda party!
That?s my kinda party!
I?m a boy and she?s a girl
And we?ve all known this around the world
Around the world
Around the world
Around the world
So, why get complicated?
You know you wanna turn me on.
Why get complicated?
You know wanna turn me on.
Underwater, with someone?s daughter
Gonna make you a dirty woman!

And when we both hold it together
And both in each other
That?s my kinda party!
That?s my kinda party!
I?m a boy and she?s a girl
And we?re all doing this around the world
Around the world
Around the world
Around the world
So, why get complicated?
You know you wanna turn me on.
Why get complicated
You know you wanna turn me on.
Why get complicated?
You know you wanna turn me on.
Why get complicated?
You know you wanna turn me on.
Why get complicated?

You know you wanna turn me on.
Why get complicated?
You know you wanna turn me on.
