

The Night

Heart

Deep in darkness slumber
Endless sleep
Nothin' moves
Inside my funeral suite
Feel the sun slip down as hunger strikes
Waking like bein' born Here comes the night
All my senses awakened
By little demons
Taste the human heartbeat
Bittersweet
Bittersweet It don't take long to get back
In the groove
Sharpen up you attitude
Get down with the moves
Don't look no stranger, in the eye
Walk across some trouble, baby
Just walk on by And no tomorrow, take it right now In the night I walk alone
In the night is where I belong
Take my flesh, I'll give you my soul
Hungry night keeps driving me on, ooh
Oh, ho Neon concrete jungle
Devour the weak, the humble
Hear the city nocturne, makes you burn
Oh, slip on into the darkness
Sharpen up your awareness
Get your seven senses working tonight No tomorrow, take it right now In the night I walk alone
(In the night)
In the night, that's where I belong
Take my flesh, I'll give you my soul
Hungry night keeps driving me on No tomorrow, take it right now In the night I walk alone
In the night, that's where I belong
Take my flesh, I'll give you my soul
Hungry night keeps driving me on In the night I walk alone
In the night, that's where I belong
Take my flesh, I'll give you my soul
Hungry night keeps driving me on
On and on
