

# Generations of Love

## Jesus Loves You

I don't know much but I know what I feel  
There's too many people fighting, tied to the wheel  
I don't know much but I know what I see  
There's too many people crying washed out to sea And there's much more we can say  
And there's much more we can do  
And there's much more we can learn  
Generations of love I don't know you but you know what I am  
Hey, I don't need redemption or no government plan  
No big AIDS sensation no 28 clause  
The end of apartheid, no message of war The Jew and the Gentile, the back and the gay  
The lost and the futile, they've all got something to say  
The African nation, the sword of Islam  
The rebels in China, the Sikhs and the Tams The house of our Father, the volumes of guilt  
The luck of the Irish, the blood that we've spilt  
The angels and martyrs, the lovers and saints  
The sisters of mercy, the brothers of pain
