Burst command 'til War (Re-Recorded)

Sodom

WarNuclear warheads are ready to fight
Total destruction, the only might
We are all suicide, without brain
And people are running and dying in painBurst command 'til warThe overkill is near
Nobody feel the heavy fear
Thousand megatons dynamite
Wait to kill a lifeBurst command 'til warWe live our life in grieved desire
Our hopeless is getting higher
You cry for freedom, but nobody hear you
The end of the world is trueBurst command 'til warWar, war, warBurst command 'til war
Burst command 'til warWar
