When The Rains Came

Beth Rowley

ooohhhooo
When the rain's came.
I looked to heaven.
When they washed away my dreams
I cried all night
In my heart I knew you'd be there
Cause I felt the love
and then I saw the light
Through the hard time's through the bad time's
You always came and sang to make things right
Now I don't worry about tomorrow
Cause I felt the love
and then I saw the light
From the darkness comes a doorway
When the sun's up in the blue and burning bright
I'll be dreaming about that morning
Cause I felt the love
and then I saw the light
yes I felt the love
and then I saw the lightWhen the rain's came.
I looked to heaven.
When they washed away my dreams
I cried all night
But,In my heart I knew you'd be there
Cause I felt the love
and then I saw the light
Yes I felt the love
and then I saw the light
Yes I felt the love
and then I saw the light
