

Glad To Be Alive

Blue Rodeo

It was high, high on a hill Where she'd go at night
And stand in the snow-covered field Looking across the lake
To lights in town Glad to be alive
Glad to be alive Glad to be alive A still winter's night
With Christmas stars

Shining so bright And the wind knew her song So he cried and sang along Glad to be alive
Glad to be alive Glad to be alive A still winter's night With Christmas stars Shining so bright And the wind knew
her song So he cried and sang along
Glad to be alive Glad to be alive Glad to be alive Glad to be alive Glad to be alive Glad to be alive Glad to be
alive Glad to be alive So glad To be Alive
