Running Out of Time

[Roses Are Red](#)

I saw the rain wash her away
Took me to the wire
The sun erasing her in waves
Set my heart on fireNow I know
She's running out with
Running out of time
Off we goStay the same
I think we're better off this way
Play your game
I'd rather fight then fade awayReplaced her eyes with dollar signs
I'm a fucking sty
With mine her wish is realigned
That's just who we areNow I know
She's running out with
Running out of time
Off we go
We're running out of timeStay the same
I think we're better off this way
Play your game
I'd rather fight then fade awayNow I know
She's running out, she's running out
But are we running out of time?
Are we running out of time?She's running out with
Running out of time
Off we goStay the same
I think we're better off this way
Play your game
I'd rather fight then fade away
