

Dear John

Styx

Dear John, I knew you about as well as anyone
We were the wild ones
So sure those days would never end
Now they're only memories my friendDear John, I'll see you
Some day againI swear, I saw you on a crowded street today
I almost called your name
Thinkin' of all those yesterdays
Heaven help me, how I miss my friendDear John, I'll see you
Some day againThere'll be a celebration
When all will be revealed
We'll have a reunion
High on a hillDear John, how are you?
God knows it's heaven where you are
Find some peace there
May it never endDear John, my heart knows
We'll meet again
Dear John, I'll see you
Some day again
