One Step Closer

S Club Juniors

I've been waiting just a long time
Just trying to get through
And it's taking all of my strength
To keep me here away from you
It doesn't matter
Just how long it takes
Nothing changes
When we're apart
It's just a little bit longer
We've come this far

One step closer to heaven baby
Means one step closer to you
There'll be no more livin'
Without you baby
I'll be counting each minute
'Till i'm back to you
One step closer to heaven baby
Hold on hold on
Hold on to my lovin'

I've been saving every little bit
Of my love for you
I've been dreaming just to get by
It's so exciting, Fantasising
It doesn't matter
Just how long it takes
Just to know
We'll be back together
And this time its forever

One step closer to heaven baby
Means one step closer to you
There'll be no more livin'
Without you baby
I'll be counting each minute
'Till I'm back to you
One step closer to heaven baby
Hold on hold on

Hold on to my lovin'

It doesn't matter
Just how long it takes
Nothing changes
When we're apart
It's just a little bit longer
We've come this far

One step closer to heaven baby
Means one step closer to you
There'll be no more livin'
Without you baby
I'll be counting each minute
'Till i'm back to you
One step closer to heaven baby
Hold on hold on
Hold on to my lovin'
