

Still Can't Fade It

Warren G

You can never fade thee G, they're so crazy
When they start to blaze after dark
You can never fade thee G, they're so crazy
When they start to blaze after dark
Now I can take you on a maze of thangs but all I know is street life
Twenty some years and all I lived was the urban life
Shootin' dice, smokin' weed, gettin' my hustle on
Makin' anybody raise up that try to do me wrong
Me and the homeys on the move tryin' to make a grip
Bumpin' OG's in zone when we dip, not to trip, unless you trip
Automatic will release dangled as peace
I'm stayin' soldier to the streets
So tell me how do you fee, 'cuz I can't deal wit the anger
You niggaz be givin', I'm keepin' one in the chamber
The pressure is thick so I don't quit shootin' game
And peepin' our enemies violatin' in my range
They say it don't change and here's a fact you should know
That niggaz don't hustle no matter where yo ass go
So when you think wrong, I'm thinkin' right, are you prepared to meet
Gotta be wise, 'cuz everythang ain't what it seems to be
You can never fade thee G, they're so crazy
When they start to blaze after dark
You can never fade thee G, they're so crazy
When they start to blaze after dark
In six before out shacks, cruisin' each block
I'm lookin' for a space with my forty glock cocked
Temple, Salt Lake, 21st Lewis, I hits MLK, 'cuz I know, I gots to do this
Some people say Warren, would you please stick to rappin'?
But this fool's pressin' me, so I gotta start capping
187, now I'm stuck out of luck in the high powered module
Lookin' crazy as fuck LBCing to the fullest twenty-one, dominoes
Buck wheats, French braids and naked four doors
It's my city, my city's all good
Warren G kickin' back with the Twinz in the hood
You can never fade thee G, they're so crazy
When they start to blaze after dark
You can never fade thee G, they're so crazy
When they start to blaze after dark
Press up if you want to, believe that you'll get your feeling's hurt

All you hear is the chirp, along with my wheels as I skirt
You shouldn't of tried to fade the Locc, there ain't no get back
I meant that, get ready for combat it's like that
Prayin' that my homeys don't flip as I elevate
Bringin' nothing but heat stayin' away from the weak links
Be your own man survive, make that money grow
Whether it comes fast or it comes slow
Either way it goes, we step so, I stick and move
Refuse to lose, I choose to get the blues
Paid dues for years, but where were you niggaz then
Out flossin' the boulevard being hard wit your friends
While I was at home puttin' in work, you think you goin' jerk
And take what's mine get me twisted with a skirt
I notice the difference, 'cuz I been back on niggaz they true
But now I see it and it's on since it's like that
You can never fade thee G, they're so crazy
When they start to blaze after dark
You can never fade thee G, they're so crazy
When they start to blaze after dark
