

Why Did We Fire The Gun

Waldeck

Lay down your head
And show me if you like it
Lend me your ears
And read me like a book This conversation
It strikes me
No need for words
It's all understood Lay down your head
And show me if you like it
Wondering if there is something
We did wrong
Nothing can stop me
From shaking
Why did we have to fire that gun? Lay down your head
And show me if you like it
Wondering if there is something
We did wrong
Nothing can stop me
From shaking
Why did we have to fire that gun?
Why did we have to fire that gun?
Oh why did we have to fire that gun?
