J5 Blackalicious

Yo, we take a journey through music right now
We take a journey through music right nowYo, when music temptations can't be resisted
Fifths will be inconsistent make me a misfit
Listed as a phenomenon I got an oncoming bomb
Which is perfection and flexin' like I spent time in NamThe beat is on and its nice an easy
Instrumentals blendin' like cinnamon rice and peas
And lives a breeze when you don't have to kick it to find
Contemplate the creation with blackalicious and ITuna fish is for a musical infant hes past gone
Tryin' to hold fast and grasp hits like last fall
So last long flash on keepin' the past strong
We grab songs and rhythm so people can catch on, yesMy mic honor 'cause my momma I twiced promised her
Love life if music is truly your wife honor
Her burnin' to your thermometer stretch a million kilomteres
Connect a population at birth to one another for realMusic, deliver from within and it covers up everything
Music, when the melody and rhythm get the moving an unity
Movin' one force one love one whole community
Do it, keep travelin' on, keep travelin' onUnderground or overboard overload oh my, Lord
More remore pure sonic over joy sworn for shorts
Unseen aquatic 'bout to get explored
Warriors breakin' all the limits twistin' the lawsNow who said that underground is only just one more
I'm selling time and space and matter makin'
Hula-hoops of saturns singsAnd bring my thing and sink to think
That these was meant to be writ if these spits will ever be writ
We on some destiny we just a piece of this
We often testament on every cultural elementEver sent to us by the ancestors as though we manifest it
Some new world pedestrians
Just lounging with some fishin' poles up on the moons crescent
Just tryin' to make some history spittin' on a few recordsI had a dream like martin Luther king in adolescence
And now I'm out in Tokyo and Europe havin' sessions
The final destination used to be my main question
But then I looked and all that I was searchin' for was presentThe final destination used to be my main question

But then I looked and all that I was searchin' for was present
 And now I'm out and, out on and on the road we play
 Soundin' off like army ho replay
 Talkin' bout walkin' miles of roads he paved
 Travel out droppin' bombs with no delay And now I'm out and out on and on the road we play
 (Music, deliver from within and it covers up everything)
 Soundin' off like army ho replay
 Talkin' 'bout walkin' miles of roads he paved
 (Music, when the melody and rhythm get the moving an unity)
 Travel out droppin' bombs with no delay
 (Movin', one God one love one whole community)
 (Do it, keep travelin', on keep travelin' on) Now see we rock around the clock we don't stop for nothin'
 Gonna take it to the top, go non stop, go no frontin'
 People listen when it drops 'cause it speaks to something
 In they souls when they all alone spacing in the zone Or walking they block, talking to they homey at the shop
 See the point is this, even if the homey got the shot
 Then there still be the bump knockin' in your trunk
 Get ya out your slump rockin' it straight off the top I'm cockin' it like ingredients thrown hap-hazardly inside a
 crock pot
 With a magic sock schnapps a big ass book and some vodka
 And pass it my way 'cause I'm a real big talker
 And I love new experiences I'm the godfather Of gettin' into to trouble on the road undercover shit
 Take your whole crowd if you leave 'em uncovered
 And I believe even hammer would say my shits proper work
 Not to put a damper on the underground answer shit You dealin' wit motherfuckas not underground anthem thugs
 Rock from the west coast damn near the Athens
 And you still hate a whack song as much as the next man
 And still in love with the good one We interact with listeners this is our contribution on the war against
 The whiteness is likeness a constitution of fatness
 Blackalicious jurassic more lytyrical madness
 Your mind is captured with tactics to get you back to the fatness And you still want to battle just how long does
 this last?
 We have the fashion to classic the pure love satisfaction
 Is when the magic is captured live-action ain't tangible with Music, deliver from within and it covers up
 everything
 Music, when the melody and rhythm get the moving an unity
 Movin', one God one love one whole community
 Do it, keep travelin' on, keep travelin' on We take a journey through music right now
 We take a journey through music right now
 We take a journey through music right now
 We take a journey
