

# Shine My Machine

Suzi Quatro

Down in Motor City where I come from  
People like their music loud  
Motown was born down the east side  
Detroit is the name of my town  
Factory-workers, hippies and crew-cuts  
Jumping up and down in their seats  
In the daytime it sure looks different  
But at night it's just a rock-n-roll beat

[Chorus]

So rev my engine  
Shine my machine  
Drive me-pet me, baby  
Fill me with Slo-Gin

Soul-brother likes his old Motown  
The greaser still likes to jive  
You can't knock a rocker for rockin'  
It's what keeps this city alive

[Chorus]

Soul-brother likes his old Motown  
The greaser still likes to jive  
You can't knock a rocker for rockin'  
It's what keeps this city alive

[Chorus]
