

# African Moon

## Boney M

African moon  
Rollin' with the mighty waves  
We'll be there soon  
Feel the winds as we sail on home to African moon  
African moon  
My heart beats like the drum  
Now it is noon  
Loved ones I left behind I'll see again  
African moon  
African moon  
I will see you once more  
Yes again I'll adore the real sound of the drum  
Oh yes I'm sailing feel your hot sun  
African moon  
African moon  
Looking out to the sea  
A reunion there'll be in the evening sun  
Oh there's a new life that's awaiting me  
African moon  
Hold up your head  
One day you'll be understood  
Stand and be proud  
Your sorrows are gone for good  
Hold up your head  
And you'll be satisfied  
African moon  
I will see you once more  
Yes again I'll adore the real sound of the drum  
Oh yes I'm sailing feel your hot sun  
African moon  
African moon  
Looking out to the sea  
A reunion there'll be in the evening sun  
Oh there's a new life that's awaiting me  
African moon
