Bigger Than Life

Rich Gang

look around
this is where you wanna be yh
this shit bigger than life
we don't gotta play around
(no no no no)
and when the sun come up we gonna be alright
speak up on it baby we gonna be alright
i want you to know(chorus)
this is big, i'm bigger than life
bigger than life
ooooo
when the sun comes down it'll be alright
this is big, bigger than lifetyga:
uh,the city love me every night
and your waving to the fans
it ain't hard to deside
she know we fly, she pick a flight in no time
i'll be my own business, why you busy minding mine
you was on my level
both came from the ghetto
and later were separated
we hate it
i'm glad you made it
when your mountain top
they say there's nowhere to go
but now i be chillin
just look around
perpendicular moma be straight forever
her crib about an hour
now she out in counter
predicted it be better
we change the game like quarters
two dimes together,they high five til whatever
i can mention your name but i rather keep it clever
YMCMB i tell you every letter
she just wanna chill with a star feel special,
no stressing, no pressure, i'll bless ya(chorus)
this is big, i'm bigger than life
bigger than life 3x

ooooo
when the sun comes down it'll be alright
this is big, bigger than lifebirdman:
money on the grind,
money on my mind
do it big time
turn your head line
big money nigga
hustle hundreds nigga,
old school nigga
hundred mill nigga
chandelier lights
persion on the rug
Roberta for the bitch
nine for the plug
count a hundred g's
fifty on the piece
cooking up some keys
flip it with some b's (yeah)
everyday the same grind
up late nights nigga tryna flip mine
born to shine
plaques on every shelf
blind any weather nigga with the smith and west(blah)
million on the whip nigga,
shit, Gucci bag full on chips nigga
yeah and got the game off the flow
moving bricks on the low
hundred g's full of throne
uptown off the mound nigga
shredded down put it down in every town nigga
big money stay poping
uptown real nigga(chorus)
this is big, i'm bigger than life
bigger than life 3x
this is we ,
im bigger than life 2x
ooooo
when the sun comes down it'll be alright
this is we, bigger than lifelil wayne:
uh smoking on the good
killing these hoes like blare under wood
dreads in the wind
blowing like a rhyvmic
getting money like a bitch

erm Robbin givins
god is my showfer
take me to my destiny
white girl black girl
i call that a referee
i'm definitely alive
bullshit aside
red flag in my pocket
i call the bulls eye
i aint never gave a fuck about another mother f*cker
every night i pray to god that i don't kill an undercover
word to my mother
give the world to my mother
i swear when my moma die
that's when imma die
f*ck bitches
get money young money
go hard
skate hard
big bees no honey
