Ridden With Disease

Autopsy

Stricken with a horrible disease
Mankind falls victim to doom
Festering plague spreads across the earth
Rotting death, morbid curseSkin begins to rot
Deaden and peel away
Bones collapse
From advanced decaySlow and painful death
No more blood to bleed
No end to the cadavers
Ridden with diseaseFaces decomposing
Screaming in pain and despair
Becoming one with the earth
Flesh deteriorates until bones are bare
BareSkin begins to rot
Deaden and peel away
Bones collapse
From advanced decaySlow and painful death
No more blood to bleed
No end to the cadavers
Ridden with disease
