

Until You Come Back

Athena Cage

Last night I cried and cried myself to sleep
I ain't been to work one day this week, oh no
You probably think I'm kinda crazy
But I'm just crazy about you, baby
And I know it's time to get over you
I don't really wanna see nobody
I just wanna stay right here
Unplug the phone sit here and wait for you
For you to come back to me
Won't somebody tell me please
When will I get through this pain?
Things the same won't be the same
Until you come back to me
What would my friends think if they saw me like this
They think I'm always the one so in control
But you got me chasing a dream that could never be
And I know, I gotta get over you
I don't really wanna see nobody
I just wanna stay right here

Unplug the phone sit here and wait for you
For you to come back to me
Won't somebody tell me please
When will I get through this pain?
Things the same won't be the same
Until you come back to me
Don't make me leave it behind, what we had, boy
'Cause darling, you'll never find a love that's truer than mine
Maybe one day you'll see that my love was true
Please tell me why, why did you leave?
I don't really wanna see nobody
I just wanna stay right here
Unplug the phone sit here and wait for you
For you to come back to me
Won't somebody tell me please
When will I get through this pain?
Things the same won't be the same
Until you come back to me
