Stuck In Here

Once again I'm stuck in here
Once again I'm in low gear
Once again I have a fear
Once again I'm stuck in hereHey just close the door
Think back and just ignore
Hey just close your eyes
Think back and realizeOh no, I'm stuck in here
Oh no, still stuck in here
What makes you think that it's okay?
Don't start it off, don't relateTake the job but not the pay
Forget the hours but not the day
Hey just close your eyes
Think back and realize
