

# Erratica

## Anubis Spire

Erratica

Erratic

We annoy by design

Static

We're the noise on your line

We'll never give you what you want

We'll only offer what you need

Control

They achieve now by stealth

Destruction

You'll achieve by yourself

They turn rebellion into hate

Cash you in, throw you away

It's such a pretty uniform

I've seen it all somewhere before

It's just the scenery that changes

You're the hippy with the headband

You're the punk with the sneer

You're the same sad parade

I see marching by here year to year
