

Bullets

Embrace

"Bullets" What's her name?
Don't say it's better if I stay away
She's living proof we're not all made the same
And I'm to blame for all her toxic heartbreak
But in my defense today I'm gonna show you
If you cut me open bullets fill my heart
Your name's on every one
Oh, let me show you
If you cut me open bullets fill my heart
Your name's etched on them all
Jump right in
Forgive the devil for his dirty tricks
There's nothing that I can say but I can show you
If you cut me open bullets fill my heart
Your name's on every one
Oh, let me show you
If you cut me open bullets fill my heart
Your name's on every one So don't give in
I know the hurt you're in
Let me unburden it
I know our dirt won't change
Don't give in
There's no way we won't win
This dirt's where we begin
Oh, say you won't give in
I will wait
I'm on a bed of nails but I've got faith
That she's my fate
What's her name?
